

## One Voice- Montreal

### Table for Two

Lymphoma Canada patient and caregiver program

The cost of medical expenses for those diagnosed with lymphoma often makes it impossible for patients and their loved ones to forget about their disease and enjoy the many activities that are taking place around them.

You have the opportunity to make it possible for a patient and their caregiver to if not a day, just a few hours relax and enjoy their time together.

The Lymphoma Canada patient and caregiver program was created to do just that. Through this program you can give patients and their family the break they need to relax, to have fun together, and to escape the stresses of being diagnosed with cancer.

You will see the impact that one extra ticket or registration can have on someone's life.

**Participate in the Lymphoma patient and caregiver program at one of our upcoming events.**

### Ways to participate:

- Through sponsorship
  - If you sponsor an event and have additional tickets. You can give some of those tickets to Lymphoma Canada to give away to a patient and their caregiver.
- Register for two
  - You can register for additional tickets through the website
